Professional Summary

Front-End Developer with strong experience in **React, Next.js, Tailwind CSS, and modern CSS**. Skilled in building clean, responsive, and fully **accessible (WCAG-compliant)** user interfaces with a strong focus on usability and user experience. Experienced in delivering projects **end-to-end** — from client communication and UI/UX design to development, SEO optimization, and deployment. Familiar with backend development using **Node.js, Express, and MongoDB**, and comfortable working with **REST APIs**. Detail-oriented, proactive, and eager to grow in a professional front-end environment.

Technical Skills

HTML5, CSS3 | JavaScript (ES6+) | Vite

React.js | Next.js | Tailwind | REST API | Node.js, Express, MongoDB

Git, GitHub | Responsive Web Design | Visual Studio Code | Figma | WCAG 2.2

Project Experience

P.A. Home Care Services — Commercial Business Website

Demo: pahomecareservice.co.uk | **Code:** github.com/netkatya/PA-home-care

- Designed and developed a responsive business website using Next.js and Tailwind CSS

- Built the project end-to-end: client communication, UI/UX design, development, deployment

- Implemented WCAG-compliant accessibility (semantic HTML, keyboard navigation, colour contrast, focus states)

Role: UI / Front-End Developer

The Nail Touch — Commercial Business Website

Demo: thenailtouch.com | **Code:** github.com/netkatya/the-nail-touch

- Designed and developed a responsive business website using Next.js and Tailwind CSS

- Defined UI/UX and visual style based on client needs; generated custom visuals using AI tools

- Collaborated with another developer as Team Lead, delivering a production-ready solution

Role: Team Lead, UI / Front-End Developer

Clothica — Online Clothing Store

Demo: clothica-shop.vercel.app **| Code:** github.com/netkatya/clothica-shop

- Developed a modern, responsive online clothing store using Next.js, React, and TypeScript

- Implemented product catalog with filters, categories, sliders, and intuitive navigation

- Implemented authentication and authorization using JWT

- Added light/dark theme, form validation, and dynamic component loading to enhance performance and UX

Role: Team Lead, Developer.

A.R.I - Learn JavaScript

Demo: js-game-seven-indol.vercel.app **| Code:** github.com/netkatya/js-game

- Designed and developed a browser-based game using Next.js, TypeScript, and Tailwind CSS

- Created the entire game logic, animations, and user interactions from scratch

- Focused on responsive UI, smooth transitions, and clean component structure

Role: Author, Developer.

Work Experience

Duty Manager – Adlington Retirement Living | Sheffield, UK | Feb 2023 – Present

- Managed internal digital systems, improving information accuracy and usability
